2022 Teacher Leader Academies

June 13 - 15, 2022 | Transportation Cabinet | Frankfort

Mathematics Academy

Getting Everyone on the Team to be on the
Same Page: Are We There Yet?

Using the framework for a Mathematics Whole School Agreement from The Math Pact (Dougherty, Bush & Karp, 2021) this workshop is designed for teams of mathematics teachers to explore specific and actionable steps in building coherence and consistency across grade levels and schools. Through collaboration, discourse and reflection, teams will draft their commitments toward quality and equitable instruction for all students. Participants will receive a grade level copy of the book, *The Math Pact: Achieving Instructional Coherence Within and Across Grades*.
